

# MAKING A PLAN FOR YOUR GARDEN

RESILIENCY FARM

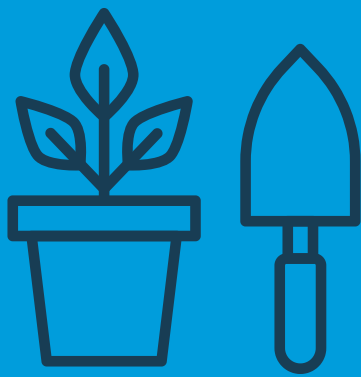

**TO SEED OR NOT TO  
SEED**

Will you grow from seed or pick up plants at your local garden center?

Are you planting a balcony container garden or an acre vegetable garden?

**ASSESS YOUR SPACE**

**KNOW YOUR PLANTS**

What's the recommended location, spacing and water requirements?

Do you have sunny spots? Shady spots? Transitional areas in between?

**SUN VS SHADE**

**MAKE A LIST**

Before heading to the garden center, make a shopping list and check it twice.

When in doubt check with the plant-lovers at your local garden center.

**ASK THE EXPERTS**

**HAPPY GROWING!**
